

### **Product information**

## 95 16 200

### **Cable Shears**

With twin cutting edge

IEC 60900 DIN EN 60900

#### <u></u> £ 1000 V

| General  |  |
|--|--|
| Article No.  | 95 16 200  |
| EAN  | 4003773026761                                    |
| Shears   | chrome-plated                                    |
| Handles  | insulated with multi-component grips, VDE-tested |
| Weight   | 340 g  |
| Dimensions   | 200 x 68 x 19 mm                                 |
| Standard   | DIN EN 60900 IEC 60900                           |
| Reach  | no   |
| RohS   | no   |
| Technical details                                    |  |
| Cutting capacity copper cable, multiple-<br>stranded | 70 mm <sup>2</sup>                               |
| Cutting capacity copper cable, multiple-<br>stranded | Ø 20 mm  |
| AWG  | 2/0  |
| VDE tested   | yes  |
| Classification                                       |  |
| eCl@ss 5.1.4   | 21040601   |
| ETIM 5.0   | EC000142   |
| ETIM 6.0   | EC000142   |
| proficl@ss 6.0                                       | EAD256c001                                       |
| UNSPSC 13.1  | 23241616   |

technical change and errors excepted

- For cutting copper and aluminium cables
- Not suitable for steel wire and hard drawn copper conductors
- Precision-ground, hardened blades
- Clean and smooth cut without crushing and deformation
- Adjustable bolted joint, self-retaining screw
- Low handforce required due to favourable lever ratio and special blade geometry
- Pinch guard prevents operators' fingers being pinched
- High-grade special tool steel, forged, oil-hardened

# **KNIPEX** Quality – Made in Germany

Final cut: after cutting the sheath in the front profile the conductors in the rear part are cut. Initial cut in the front profile, final cut in the rear profile - to keep it as easy as possible.

Initial cut: using the front cutting edge to cut the insulating sheath on larger cable diameters leaves an ergonomic handle opening width.
