

Series 7400 Krafftform pistol handle, pre-set adjustable torque screwdrivers  
(3.0-8.8 Nm) with Rapidaptor quick-release chuck, 7462 x 3.0 Nm x 3.0-6.0 Nm  
Series 7400 Krafftform Torque Screwdrivers, with a factory pre-set measurement value

<b>EAN:</b>	4013288102935	<b>Size:</b>	218x81x51 mm
<b>Part number:</b>	05074717001	<b>Weight:</b>	266 g
<b>Article number:</b>	7400 pre-set, pistol handle	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82054000

- Factory pre-set torque screwdriver with pistol handle
- Rapidaptor quick-release chuck
- Rapidaptor technology for rapid bit change
- Suitable for bits with 1/4" hex head drive
- Distinct signal when pre-set value is reached

Wera torque screwdriver. Krafftform pistol handle for particularly high torque transmission, multi-component for high working speeds and particularly ergonomic screwdriving. With a factory pre-set torque value set to the smallest scale value. For all applications, where the same constant torque and repeat accuracy are required. The torque can be changed with an extra tool within the measuring range (re-calibration kit can be ordered with the code number 05137002001). Afterwards you can check the set value using an off-the-shelf torque tester. Unlimited loosening torque for slackening stuck screws. Rapidaptor quick-release technology for rapid bit changes. Suitable for bits with a 1/4" external hexagon drive as per DIN ISO 1173-C 6.3 and E 6.3 (ISO 1173). Multi-component Krafftform handle with hard and soft zones for high working speeds, whilst being easy on the hand. Please note: 1 Ncm = 0.01 Nm.

**Series 7400 Krafftform pistol handle, pre-set adjustable torque screwdrivers (3.0-8.8 Nm) with Rapidaptor quick-release chuck, 7462 x 3.0 Nm x 3.0-6.0 Nm Series 7400 Krafftform Torque Screwdrivers, with a factory pre-set measurement value**

**Pre-set, adjustable torque screwdrivers**

Pre-set, adjustable torque screwdrivers

Wera torque screwdrivers. With a factory pre-set torque value set to the smallest scale value. For all applications, where the same constant torque and repeat accuracy are required. The torque can be changed with an extra tool within the measuring range (re-calibration kit can be ordered with the code number 05137002001). Afterwards you can check the set value using an off-the-shelf torque tester.

**Unlimited torque**

Unlimited torque for loosening seized screws.

**Versatile**

Rapidaptor technology makes the tool adaptable since bits and sockets can be exchanged rapidly.

**Chuck-all**

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

**Rapid-in and self-lock**

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

**Rapid-out**

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

**Single-hand function**

Every function of the Rapidaptor quick-release chuck, such as inserting or releasing bits, can be carried out with one hand. This is faster, more economical and more ergonomic. There are no unnecessary manoeuvres.
